

# Collaborative School Cohorts

Working together to strengthen collaboration within your district and beyond

## Regional Cohort

Work with 3 or more districts in your region to reach goals, solve problems, share insights

## Co-Created Goals

Establish goals as a cohort through facilitated human-centered design strategies

## Inclusive Workgroups

Strategically select a voluntary working group of district, building, and classroom leaders who participate in the cohort

## Custom Resources

Learn research-based practices tailored for your cohort to enhance instruction and culture

## Improvement Cycles

Engage in cycles of improvement during the 3 cohort PD days that rotate between sites

## Additional PD

Elect to receive personalized PD for up to 20 educators per day

## Benefits

- Cultivate a collaborative culture within your school
- Increase faculty and student engagement
- Share resources and strategies with your cohort
- Experience research-based coaching and modeling
- Build 21st Century Skills of students and educators

## What's Included?

Your Working Group includes district, school and classroom leaders

2 virtual meetings with your Working Group and 3 in-person Cohort PD days

Co-created goals and expert facilitation

PD materials, lesson kits, visual aids and customized resources

Assistance with forming your cohort and with planning and logistics

## TeamBuilders Cohorts Collaborate, Inquire and Co-Create Solutions

Enhanced academic group work (Maker Ed, Design Thinking, PBL)

Deepened faculty collaboration (Co-planning, Co-teaching, PLCs)

Improved student behavior (PBIS, SEL, Anti-bullying)

**Cohorts accelerate progress on your strategic goals**

"I think the potential for impact is super high. Will it be easy work, no, but I feel **it is work worthy of investing time and effort.** These are the type of opportunities I have been looking to become engaged in."

**Pete Mathis, EdD**  
Assistant Principal ECS

**Jordan P. Lippman, PhD**

Founder

The TeamBuilders Group

Jordan leads the research and development efforts at The TeamBuilders Group. He is an experienced researcher, learning engineer, facilitator and thought-leader in the field of education. His award-winning research on learning has been published in books and journals such as Instructional Science. Jordan has been invited to present at educational summits around blended learning, curriculum integration, 21<sup>st</sup> Century Skills, maker education, and professional development.

Jordan has co-founded and sold an EdTech startup and served on the strategic advisory board of the Partnership for 21<sup>st</sup> Century Learning (P21.org). He is currently the Research Director of a national study of the instruction and assessment of collaboration in schools called Collaboration Nation, and he serves on the board of the Three Rivers Educational Technology Conference (TRETc).
